SUMAN SWAMY

AI/ML Engineer | Generative AI & NLP | Python

+918310722811 | sumanswany26@gmail.com | linkedin.com/in/suman-swami-9516152a5 | Gadgi, Bidar, Karnataka

CAREER OBJECTIVE

Motivated Electronics and Communication Engineering (2026) student with hands-on experience in Generative AI, Machine Learning, and NLP through a Gen AI internship and 3 applied projects. Proficient in Python, Scikit-learn, Tensor Flow, and the Gemini API. Seeking a full-time role as an AI/ML Developer or Gen AI Engineer where I can build intelligent, real-world solutions.

TECHNICAL SKILLS

Programming Languages: Python
Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, Keras, Matplotlib, Seaborn
Generative AI & NLP: Google Gemini API, Prompt Engineering, TF-IDF, Cosine Similarity
Tools & Platforms: Streamlit, Jupyter Notebook, VS Code, GitHub
Core Concepts: Machine Learning, Deep Learning (CNN), Natural Language Processing, Feature Engineering, Exploratory Data Analysis (EDA)

INTERNSHIP EXPERIENCE

Artificial Intelligence and Generative AI | [Wingcruit consulting services] | [Duration, Feb 2026 –May 2026]

- Built 3 end-to-end AI/ML projects: a healthcare risk predictor, an audio classifier, and an AI-powered ATS resume analyser using the Gemini API
- Applied Python, Scikit-learn, TensorFlow/Keras, and NLP techniques on real-world datasets
- Deployed projects using Streamlit, gaining experience in full-stack AI application development

PROJECTS

AI Resume & JD — ATS Match Analyser [MAJOR PROJECT]

GitHub: https://github.com/sumanswamy26/AI-Resume-JD-ATS.git

Tech Stack: Python, Google Gemini API, NLP (TF-IDF, Cosine Similarity), Streamlit

- Engineered an end-to-end ATS Resume Analyser that extracts keyword match scores between a resume and a Job Description using TF-IDF and cosine similarity
- Integrated Google Gemini API to generate actionable skill-gap suggestions and resume improvement recommendations
- Built an interactive Streamlit UI allowing users to upload resume PDF and paste JD for instant analysis — reducing manual screening effort by ~70%
- Live demo: [your Streamlit link here]

Smart Risk Predictor for Diabetics

GitHub : https://github.com/sumanswamy26/smart-medical-risk-predictor-Diabetes-.git

Tech Stack: Python, Scikit-learn, Pandas, Matplotlib, Streamlit

- Built a diabetes risk prediction system using Logistic Regression and Random Forest on the PIMA Diabetes dataset
- Performed EDA, feature engineering, and hyperparameter tuning — achieving ~85% accuracy
- Deployed as a Streamlit web app for real-time patient risk scoring

Urban Sound Classifier

GitHub : https://github.com/sumanswamy26/Urban-sound-classifier.git

Tech Stack: Python, TensorFlow/Keras, Librosa, CNN, MFCC

- Built an audio classification pipeline using CNN with MFCC feature extraction on the UrbanSound8K dataset (10 sound categories)
- Achieved 90%+ classification accuracy using deep learning — applied data augmentation to improve model robustness

Weather Monitoring System using IoT [Mini Project]

- Developed an IoT-based system using microcontroller + sensors for real-time temperature and humidity monitoring
- Transmitted data to an online dashboard for remote analysis — applied knowledge of sensor integration and IoT communication protocols

EDUCATION

B.E. in Electronics & Communication Engineering *2022 – 2026*

Visvesvaraya Technological University, Belgaum | CGPA: **8.0 / 10**

Intermediate (PUC) *2020 – 2022*

Department of Pre-University Education, Karnataka | Percentage: **76%**

SSLC *2019 – 2020*

Karnataka Secondary Education Examination Board | Percentage: **86%**

CERTIFICATIONS

Google Data Analytics Capstone - Coursera | Dec 2023
Wingcruit Consulting Services - Internship | Feb 2026 – May 2026

LANGUAGES

English (Professional Proficiency), **Kannada** (Native), **Hindi** (Full Professional)

DECLARATION

I hereby declare that all the information provided in this resume is true and correct to the best of my knowledge and belief. I take full responsibility for its accuracy.
